

# Flip and Find

- Directions:

- Printing Direction - Print out pages 2-5. Page 3-5 needs to be cut on the solid lines. Put these cards in any order you would like face down. Have your child flip over a card, and then let them find it on the number chart. Once they find it, you can either have them put something in the box to show they found it or color the box. Have fun finding numbers!
- Nonprinting Directions - Pull up the number chart. Call a number and let your child find the number. Make sure your child points to the number. Correct them if he/she is wrong. Have fun finding numbers!
